

PRESS RELEASE

Paris, June 22nd, 2022

Eramet—Appointment of Guillaume Vercaemer as Legal Director of the Eramet Group

Guillaume Vercaemer has been appointed Legal Director of the Eramet Group. Accordingly, he will become a member of the Executive Committee. This appointment will take effect on September 1, 2022.

Guillaume Vercaemer has nearly 30 years of extensive experience in the legal departments of major French and international players in the industrial and mining sectors, during which time he has overseen numerous mergers and acquisitions. He will be taking over from Jean de l'Hermitte, whose 10-year leave of absence from the French civil service is coming to an end and who is returning to take up a position with the French Conseil d'Etat (Counsel of State).

Born in 1968, Guillaume Vercaemer holds a master's degree in business law and a DJCE (advanced diploma in business law) from the Université Jean Moulin Lyon 3 (1991), as well as an LL.M from Georgetown University (1992). He was admitted to the New York bar in 1993. He began his career as a lawyer at Schlumberger (1993-1996), followed by Usinor (1996-2002). He subsequently joined the Arcelor group as a senior M&A lawyer (2002-2006), and went on to become Mergers & Acquisitions Legal Director on the ArcelorMittal M&A team (2006-2017) before becoming Group Legal Director (2017-2019). Since 2020, he has been Legal Director and Director of Mergers & Acquisitions at Framatome.

ABOUT ERAMET

Eramet transforms the Earth's mineral resources to provide sustainable and responsible solutions to the growth of the industry and to the challenges of the energy transition.

Its employees are committed to this through their civic and contributory approach in all the countries where the mining and metallurgical group is present.

Manganese, nickel, mineral sands, lithium, and cobalt: Eramet recovers and develops metals that are essential to the construction of a more sustainable world.

As a privileged partner of its industrial clients, the Group contributes to making robust and resistant infrastructures and constructions, more efficient means of mobility, safer health tools and more efficient telecommunications devices.

Fully committed to the era of metals, Eramet's ambition is to become a reference for the responsible transformation of the Earth's mineral resources for living well together.
