# 1 Eramet acknowledgement

---

Eramet, beneficiary of European Union funding for the ReLieVe project, commit to display the EU flag (emblem) and funding statement "Co-funded by the European Union" as requested by the European Commission in all its communication activities related to the action (including media relations, conferences, seminars, information material, such as brochures, leaflets, posters, presentations, etc., in electronic form, via traditional or social media, etc.), dissemination activities and any infrastructure, equipment, vehicles, etc.

The EU flag and funding statement will be displayed in a way that is easily visible for the public and with sufficient prominence.

The EU funding will moreover be acknowledged in all types of public outputs (including patent applications, EU standardisation of results), media contacts and other public statements.

Eramet will use the following flag and funding statement:

**Co-funded by  
the European Union**

Eramet acknowledge the emblem must remain distinct and separate and cannot be modified by adding other visual marks, brands or text. Apart from the emblem, no other visual identity or logo will be used to highlight the EU support. When displayed in association with other logos (e.g. Eramet logo), the emblem shall be displayed at least as prominently and visibly as the other logos.

Eramet understand that, for the purposes of our obligations under Article 17 of the Grant Agreement, we may use the emblem without first obtaining approval from the granting authority. This does not, however, give us the right to exclusive use. Moreover, we may not appropriate the emblem or any similar trademark or logo, either by registration or by any other means.

Eramet will use the following disclaimer:

*Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Climate, Infrastructure and Environment Executive Agency. Neither the European Union nor the granting authority can be held responsible for them.*

The disclaimer could be translated in French considering Eramet is a French company and frequently communicate in this language. The translation of the disclaimer will be the following one:

*"Projet financé par l'Union européenne. Les points de vue et opinions exprimés n'engagent toutefois que leur(s) auteur(s) et ne reflètent pas nécessairement ceux de l'Union européenne ou la CINEA. Ni l'Union européenne ni l'autorité subventionnaire ne peuvent en être tenus pour responsables."*

Furthermore, before engaging in a communication or dissemination activity expected to have a major media impact, Eramet will inform the granting authority.

Eramet will promote the action and its results by providing targeted information to multiple audiences (including the media and the public), in accordance with the Grant Agreement Annex 1 and in a strategic, coherent, and effective manner according to the knowledge sharing plan.
